

Prime Soft

Liquid Softener

Prime Soft is a liquid softener for use in the last rinse. It is used as a substantive, cationic finishing agent for cotton, polyester and mixed fabrics. Terry goods are provided with a soft voluminous handle and the articles remain hydrophilic. Low dosage into the finishing chamber will enhance the gliding capacity of the goods in water extraction and on the mangle. We recommend to generally acidify to a pH-value of 6,0 – 6,5 in the last bath.

Chemical–Physical Data:

Aspect: milky, pink dispersion
pH-value: approx. 6,5 (1 % solution)
Density: approx. 1,02 g/ml (20 °C)

Recommended Dosage:

Hardness Range	Water Hardness mmol CaCO ₃ / l	Rinse
1	< 1,5 soft	1 - 6 ml / kg
2	1,5 – 2,5 medium	1 - 6 ml / kg
3	> 2,5 hard	1 - 6 ml / kg

Recommended dosage per kg of dry laundry at a bath ratio of 1 : 4.

Storage conditions: To be stored in a cool and dry place, protected from frost. Protect from heat and direct sunshine..
Keep recipients tightly closed.

Maximum storage time: 18 months
