Hospitals and Care Homes

CAREvolution

Where **Health**
becomes **Wealth**

Electrolux

“Electrolux Professional gave us an excellent support and the possibility of implementing two different concepts with one supplier and the good price-performance ratio: This is why we rely on Electrolux.”

Klaus Dilgert,
Central Kitchen Manager
Wilhelmshilfe, Germany

Experience. Care. Results

Major challenges faced by care homes and hospitals, have to do with patient's health issues and safety. Healthcare institutions are providers, which strive to optimize patient, family, and staff satisfaction by ensuring a well-controlled process of linen hygiene and excellent food quality.

Extensive experience makes all the difference

Choose solutions that are developed and supported by the best network of specialists to optimize workflows, grant quality and lean management. With the help of professionals, you can find the right equipment to make the link between healthy meals, clean comfortable linen and the wellbeing of patients and residents.

Do not search far for **the perfect solution** to all your needs

When you have to ...

- serve consistently **high quality** meals that are **easy to replicate**
- **manage** a **high capacity** central kitchen
- **monitor** the **performance** of all equipment
- **meet** patients' needs
- keep food and laundry **safe standards high**

... We give you a wide range of products and experience to achieve your goal of an efficient environment.

Speaking to People. Through People

Welcome to the company that has influenced the culture of how food is prepared and served professionally and has developed the world's most sustainable and flexible laundry solutions using customer insight to improve functionality, productivity and ergonomics.

Provide your residents/patients with best-in-class comfort and safety with the highest hygiene levels while maintaining full cost control.

Electrolux **Excellence**

Excellence is central to everything we do. By anticipating the customers' needs, we strive for Excellence with our people, innovations, solutions and services. Thus making our customers work and life easier and more profitable.

Growing healthy, working peacefully, feeling secure and being protected

This is the motto of Electrolux's culture of safety. A concrete and measurable commitment which ensures that people work safely, eat safely and live safely, all around the world.

Unique global service

Electrolux Professional customers are supported in their daily business by a global network of specialists in each segment.

The Service Excellence ranges from selecting the correct machine set-up and layouts for the location, installation and education, to the comprehensive after-sales process with maintenance and care.

- 2,000 authorized service centers in more than 140 countries
- Over 10,000 expert technicians
- 98,000 available spare parts in stock
- Spare parts available for at least 10 years from the end of production
- 24/48 hours spare parts delivery worldwide

Your **global** laundry and kitchen solution

To improve productivity and reduce operating costs, a worldwide supplier that offers a complete range of high-performance products for professional kitchens and laundry under the same brand, can be the solution.

Tailor-made solutions

Whatever your business requires, we design the most innovative and efficient solutions to fit the needs of any healthcare environment from compact kitchens and laundries in care homes up to large capacity production in hospitals and medical centers. With innovative planning tools, our experts will simulate any kind of configuration and provide you with a virtual reality draft.

Your partner throughout the entire process.

Servicing

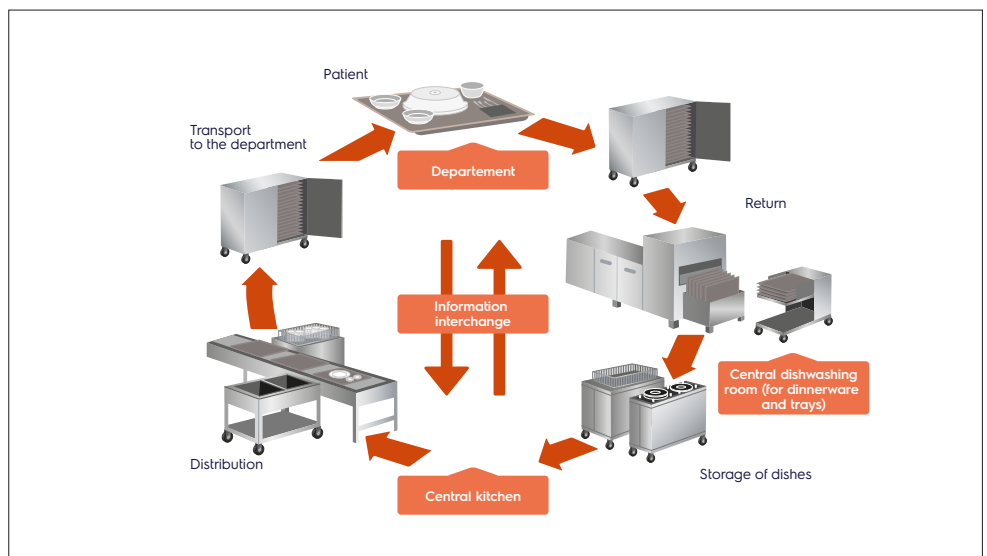

Food.

Minimize waste, reduce cost. Maximize care

With the large amount of food prepared in hospitals and care homes, it is a challenge to move towards sustainability, to have locally sourced food and a waste reduction across the entire food chain, while maintaining the taste and quality of freshly prepared meals.

Sample Kitchen Food Flow

The operational layout illustrated minimizes cross-contamination between food products. HACCP principles are incorporated by clearly separating the different areas for food preparation.

For hospitals:

Hospital wards are often a long way from the kitchen, which adds to the logistical burden and increases the risk of delays between production, service, delivery and consumption. Partnering with our workflow experts helps you in the planning processes to avoid such risks in major functional areas such as storage, refrigeration and food service.

For care homes:

Many adult day care participants are high-risk for foodborne illness due to disease or advanced age. Older people or residents with special needs are at greater risk from poor food safety. Food that is stored, prepared and served properly is more likely to retain its nutritional value. We can help plan the key stages in workflow from purchasing to receiving, storing to cooking, and cooling to reheating.

Laundry.

An efficient care solution for you.

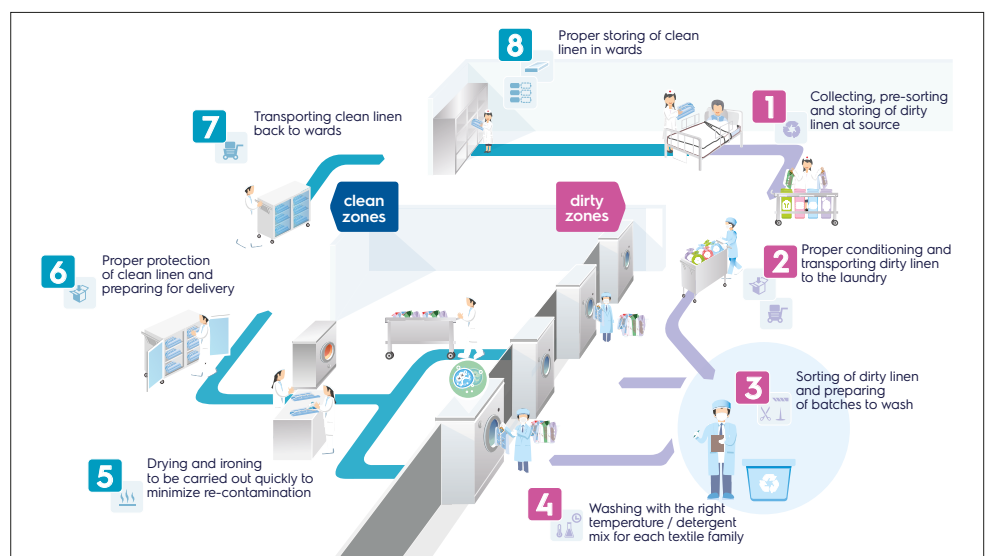

A comfortable lifestyle for patients and guests

Provide your residents with best-in-class comfort, safety and the highest hygiene levels while maintaining full cost control. Electrolux Professional has been working closely with healthcare and aged care institutions for the past 30 years to provide a well-controlled process of linen hygiene.

Sample Laundry Linen Flow

Electrolux Professional has unrivalled experience as a **global leader in hygiene laundry solutions.**

Learn more on how to render your laundry efficient

Our products and solutions provide:

- **Laundry Cycle Management (LCM)** a planned approach to laundry, that optimizes hygiene

- The best cleaning results for delicate clothing with **lagoon®**, the first wet-cleaning system approved by The Woolmark® Company

Food Solutions

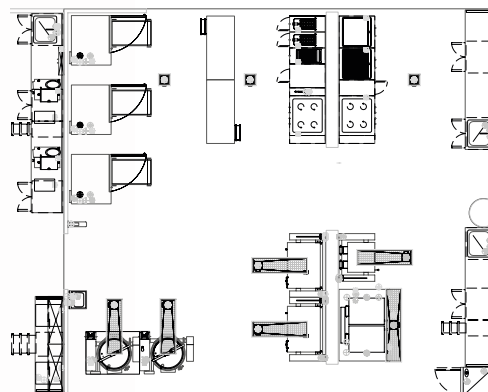

1 Hospital Package Burgos, France > 1000 beds

The installation of a complete system for waste treatment in the kitchen of the University Hospital of Burgos literally made waste disappear. The solution incorporates an advanced hot line system that enables food to be served directly on the dishes. It is a simple and linear process that follows a straightforward process in order to avoid any cross-contamination.

The installation included:

- Horizontal Cooking XP line.
- Electrolux air-o-steam Touchline ovens, each with 40 trays to give a total of **800** menus per shift.

Sample layout

2 Centralized Kitchen Package

Altenzentrum
Wilhelmshilfe, Germany
1000 meals per day

The Wilhelmshilfe central kitchen does not only supply its own homes for senior citizens and rest homes, but also school cafeterias and children's day-care facilities. The ultramodern EU certified high-performance kitchen produces about 1000 meals a day with the so-called Cook&Chill method.

The installation included:

- ▶ thermaline flexible modular design, high productivity, maximum hygiene and utmost cleanability.
- ▶ thermaline tilting Braising Pan excellent quality when preparing large amounts of meat, fish, vegetables and stews.
- ▶ thermaline Boiling Pans. The ideal solution for preparing large amounts of soups, creams, purees and rice with a consistent quality.
- ▶ thermaline ceramic range lifting and lowering devices
- ▶ food preparation mixer.

Sample layout

3 Nursing Package

Trifoglio, Italy
≥ 200 beds

Trifoglio, located in Turin, is Italy's most modern care home. Its design emphasizes the quality of the environment in which its residents live and this carries over in the planning of its kitchen and laundry services. Electrolux Professional supplied equipment to the kitchen and devised a layout that follows the normal flow of the foodstuffs through the key areas of storage and preparation.

The installation included:

- ▶ pantry for storing both perishable and non-perishable goods.
- ▶ processing area for vegetables, cold dishes and meats.
- ▶ cooking area, including trolley parking
- ▶ utensil and dish washing area.

To complete the project, 3 cooking corners (one per floor) were installed as well as a self-service line for the dining room dedicated to the workers of the care home.

for long lasting oven

Get in touch with our customers around the globe: **here is what they say**

Carolinenhöhe

Care Home
Ingelhelm - Germany

“Most of all, needed compact, easy-to-use equipment that would deliver outstanding washing performance. That’s why we chose Electrolux. We were also impressed by the excellent support provided by the service representative and the dryer’s heat pump technology.”

Elke Nekes, Laundry Manager

Joondalup Health Campus

Care Laundry
Perth - Australia

“I highly recommend Electrolux laundry equipment. We have not had any problems since the new upgrade and all staff members are highly satisfied with the machinery, which is very easy to operate.”

Janelle Weidyk, Senior Supervisor, JHC Laundry

DPS Syrena

Care Home
Warsaw - Poland

“Our Nursing Old Aged Home is one of the biggest in Warsaw. I know all our clients by name and have direct contacts to them. A few years ago I started to totally renovate our care institution. My aim is to have a warm and nice place for our clients in a modern environment. Electrolux Professional fitted very well in my concept and vision and I am happy such a partner for a long time.”

Malgorzata Slomlan, Director

Il Trifoglio

Care Home

Torino - Italy

Electrolux, a high quality brand that speaks for itself!

Danilo Garri, Executive Chef

Istituto Assistenza Anziani

Care Home

Verona - Italy

We are satisfied for two main reasons: the first is because we can verify the quality of the clean garment at a hygienic level, and the second is that the quality of the cleanliness significantly improved so patients and their families are very satisfied. Moreover the support of Electrolux is excellent.

Dino Verdolin, Director

Les Résidences de Bellevue

Hospital

Bourges - France

We see the difference. Our patients feel it. No other provider understand the specific health processes of our industry better and offers such excellent solutions.

Daniel Bertrand, Laundry Operator
